OVERVIEW

Imagine how you can accelerate the revenue cycle and automate provider business processes by managing every step in the healthcare payments process. From eligibility to money in the bank, InstaMed's fully integrated network lets you further accelerate payments for your customers. With over 200,000 providers and tens of billions of dollars in healthcare payments processed, InstaMed will connect you to the largest payer network for clearinghouse transactions. It's all available through our cloud-based network or from a single API set, so plug into InstaMed and get started today.

- Eliminate paper checks and EOBs to save time

INDUSTRY LEADING PRODUCTS

InstaMed Online for Providers

InstaMed Online simplifies the management of all your healthcare and payment transactions with our secure, cloud-based portal. No installation is required, and you can securely access InstaMed from any computer 24 hours a day, 365 days a year.

Patient Portal

70% of your patients pay their household bills online. InstaMed helps you leverage this trend by allowing your patients to view and pay their bills online through a simple, convenient, reliable and secure portal. InstaMed's Patient Portal is easy to set up, can include your brand and can even link to your existing website.

InstaMed Connect

Managing legacy integrations can be complex, time-consuming and ultimately cost prohibitive. InstaMed Connect, the healthcare industry's first fully integrated and open Application Programming Interface (API), offers a comprehensive answer by enabling any system to integrate with InstaMed's network.

INDUSTRY LEADER IN COMPLIANCE
